

POUR & LOK™

Reclosable Pour Spout for Side Gusseted Packaging

Roll to roll or in-line operation provides pre-zippered film prior to making the package.

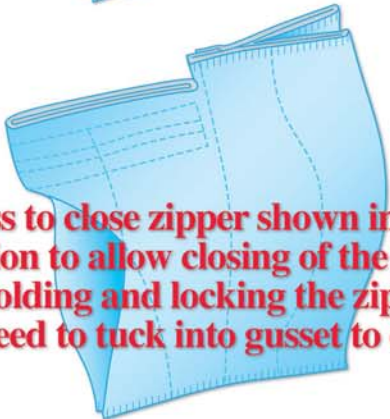

Pre-zippered film with foldable zipper in the unlocked position formed into a gusseted package.

Package with perforated header removed allowing pour spout to be opened.

Press to close zipper shown in flat orientation to allow closing of the package by folding and locking the zipper. No need to tuck into gusset to close.

- ➔ Press-to-close zipper in gusset for easy pour spout
- ➔ Foldable zipper allows spout to be closed in the extended position
- ➔ Allows large openings for scoopable products
- ➔ Pour & Lok™ also works with VFFS side-gusset style bags

INNO-LOK®
